IMPORTANT: Type in the required information while this form is on the screen and print a copy. A personalized scan line will be printed on the voucher using the information you entered. To help ensure your payment is properly credited to your account, verify that the tax-year end date and your Social Security number are included in the scan line.

When you print this voucher, be sure to set the Page Scaling to “None” in your Print options. **DO NOT** check the “Auto-rotate and center pages” or “Shrink to fit” boxes. If they are already checked, click on the box to uncheck them.

Your tax is due April 17, 2012, even if you are filing Form M1 after the due date. Use these instructions to determine the tax you must pay by the due date to avoid penalties and interest.

Do not use this form if you are filing Form M1 on or before April 17, and paying your tax after the due date.

All tax must be paid by April 17, even if you have an extension to file your federal return. There are no extensions to pay your Minnesota individual income tax.

If you will be filing Form M1 after the due date, estimate the total tax you owe and pay that amount by April 17, 2012. You can pay electronically, by credit card or by check.

Your payment will be credited to your 2011 estimated tax account. When you file your Minnesota return, include your extension payment on line 24 of your 2011 Form M1.

If you pay after April 17, your payment will be considered delinquent and will be applied to the amount you owe on your

return. The payment will not be credited to your 2011 estimated tax account.

If you pay at least 90 percent of your total tax by April 17, 2012, and file your Form M1 with payment of the remaining tax due no later than October 15, you will not be charged a late payment penalty. If you fail to pay your tax as required, a 4 percent late payment penalty will be assessed on the tax not paid by the original due date. Interest will be assessed on any unpaid tax and penalties from the original due date until paid in full.
