#### 1. Fillable form Instructions

#### Overview

USPTO fillable PDF forms use the features provided with Adobe Acrobat products. There is some validation of the information you enter but you are still responsible for entering all required information (instructions may require some information to be handwritten on the form).

#### **Software Requirements**

To view, complete and print USPTO fillable PDF forms you will need the free Adobe Acrobat Reader software installed on your computer. Version 7.0.8, 7.0.9, 8.1.1, or 8.1.2 of Adobe Reader is recommended.

### Opening the Form

Your web browser may be configured with an Adobe Reader plug-in to automatically open the file within your browser's window upon download. To download the file directly to disk, right click the form title link then select "Save Target/Link As..." from the menu. Use Adobe Reader to open the file.

## Completing the Form

When positioning the cursor on a fillable area or element, the cursor will change appearance. The I-beam pointer allows you to type text. The hand pointer allows you to select a check box or radio button.

Enter the appropriate data in each box or field. To move from one field to the next, press the Tab key. You can also use your cursor to move from field to field. Place your cursor in the field you want to fill in, then left-click.

Some fields limit the maximum number of characters you can enter and may automatically advance to the next field.

For additional help with fillable forms, see the Adobe Reader's online help information.

#### Tips:

- Use the latest version of Adobe Reader in order to ensure the form's full functionality
- This fillable form permits the entered data to be automatically loaded into the Office's electronic systems, such as PALM when electronically submitted. Printing the form, scanning it to create a PDF and submitting the scan of the printed form will require Office Personnel to key in the information by hand.
- Do not use this ADS form as a Supplemental ADS. This form does not comply with the requirements for a Supplemental Application Data Sheet (ADS). See 37 CFR 1.76(c). Supplemental ADS papers must be labeled Supplemental ADS or Supplemental Application Data Sheet and identify the information that is being changed.
- Save a copy of your work to avoid loss.
- The USPTO is only accepting certain types of applications electronically. Visit www.uspto.gov for more details

- (1) Intergovernmental organizations (regional patent offices) acting for certain Contracting States under the PCT (Patent Cooperation Treaty). In case of the European Patent Office, it also acts as International Searching Authority and International Preliminary Examining Authority under the PCT.
- The Benelux Office for Intellectual Property (BOIP) (former Benelux Trademark and Designs Offices) have replaced the national Offices of Belgium, Luxembourg and the Netherlands with regard to actions relating to marks and industrial designs.
- (3) In the electronic database of the International Register of Marks, the International Bureau of WIPO uses the following additional codes, not part of the active codes of Standard ST.3: "DD" to designate Germany without the territory that, prior to October 3, 1990, constituted the Federal Republic of Germany; "DT" to designate Germany without the territory that, prior to October 3, 1990, constituted the German Democratic Republic.
- The code "WO" is used in relation to the international publication under the Patent Cooperation Treaty (PCT) of international applications filed with any PCT receiving Office, as well as in the publication of international deposits of industrial designs under the Hague Agreement Concerning the International Deposit of Industrial Designs. In this regard, reference is made to INID code (33) given in WIPO Standards <u>ST.9</u> and <u>ST.80</u>. The code "WO" is also the appropriate code to be used with respect to international registrations of marks under the Madrid Agreement and the Madrid Protocol Concerning the International Registration of Marks. The code "IB" is used in relation to the receipt of international applications under the PCT filed with the International Bureau of WIPO in its capacity as a PCT receiving Office.
- (5) Provisional name.
- (6) Code BF adopted in 1984..
- (7) Code CD adopted in 1997.
- (8) Code MM adopted in 1989.
- (9) Code TL adopted on May 20, 2002.
- (10) Code SY used before 1.1.1978.
- (11) Code DL used before 1.1.1978.
- Subsequent to the country name change of "Yugoslavia" to "Serbia and Montenegro", that took effect on February 4, 2003, and to the decision by the ISO 3166/MA to use the new country name and new two-letter code "CS" (to replace "YU"), which was announced on July 23, 2003, the SCIT Standards and Documentation Working Group agreed, at its fifth session, in November 11, 2004, to recommend that the two-letter code "YU" continue to be used for "Serbia and Montenegro" in the industrial property field because code "CS" raised certain problems due to its former use to represent "Czechoslovakia" until 1993.
