Position 38	Voucher Type	"1" - New
Position 39 - 40	Preparer ID	"###" - Assigned by Dept. of Revenue staff
Position 41 - 50	Amount Paid	\$\$\$\$\$\$\$cc

Utilize the check boxes on the EPV to indicate which type of tax is being paid with the voucher.

The EPV form is formatted to include 6 check boxes. The check boxes are labeled: Individual, Individual - Amended, Trusts, Trusts - Amended, Estates, Estates-Amended. Logic is built using these check boxes. There is also a line to capture the Trust Name and the FEIN.

If the Individual Check Box is checked then Field 10 is "3" and Field 34 and 35 is "12" and Field 36 is "1". This indicates Fields 11 - 19 is a SSN, the tax type is individual income and the type of payment is a return payment.

If the Individual - Amended Check Box is checked then Field 10 is "3" and Field 34 and 35 is "18" and Field 36 is "1". This indicates Fields 11 - 19 is a SSN, the tax type is individual income and the type of payment is an amended return payment.

If the Trust Check Box is checked then Field 10 is "2" and Field 34 and 35 is "12" and Field 36 is "2". This indicates Fields 11 - 19 is a FEIN, the tax type is Trust Fiduciary and the type of payment is a return payment.

If the Trust - Amended Check Box is checked then Field 10 is "2" and Field 34 and 35 is "18" and Field 36 is "2". This indicates Fields 11 - 19 is a FEIN, the tax type is Fiduciary Trust and the type of payment is an amended return payment.

If the Estate Check Box is checked then Field 10 is "3" and Field 34 and 35 is "12" and Field 36 is "3". This indicates Fields 11 - 19 is a SSN, the tax type is Fiduciary income and the type of payment is a return payment.

If the Estate - Amended Check Box is checked then Field 10 is "3" and Field 34 and 35 is "18" and Field 36 is "3". This indicates Fields 11 - 19 is a SSN, the tax type is Fiduciary income and the type of payment is an amended return payment.

1. Form EPV Document Specifications

- a. Size: Form EPV must be 8 1/2" x 3 2/3".
- b. Paperweight must be 20 pounds/500 sheets.
- c. Smoothness - between 65 and 200 Sheffield units on both sides. Unacceptable coatings include carbon coating and no-carbon required coatings. The coupon must be free of foreign matter such as staples, paper clips, adhesive tape or glue, etc. There can be no holes in the coupon.
- d. Bottom edge must be perpendicular to within 2 degrees to the right-hand and left-hand edges.
- e. No tears are allowed on the right-hand and bottom edges. Any perforations for a stub must be on the topside or left-hand edges of the document.
- f. The paper must be white, highly opaque and have a flat finish.
- g. It is essential that the remitter's name appear on the coupon. It is advisable to duplicate all scan line information fields elsewhere on the remittance coupon to facilitate any necessary data entry correction.

- b. The software should default to omit the scan line altogether if the customer is unable to print in OCR "A" font.
- c. The OCR scan line must be printed on each form.

Multiply by 2: 2, 2, 2, 4, 18, 18, 18, 18, 18, 16, 12, 8, 4, 6

Digits not multiplied (From right to left): 2, 2, 0, 0, 9, 9, 9, 9, 9, 7, 5, 3, 1

Add the digits: 1st number
{2+2+2+4+(1+8)+(1+8)+(1+8)+1+8+(1+8)+(1+6)+(1+2)+8+4+6} =

2nd Number {2+2+0+0+9+9+9+9+9+7+5+3+1} =

Sum: 83 + 65 = 148

Next highest multiple of 10 = 150

Subtract: 150 - 148 = 2

Check Digit: 2
